4.	Best Practice Premier Knowledge Base.....	3

1. Document Control

Name	Surgical Partners BP(Halo) Integration Process
Version Number	1.0
Owner	SM
Last Review Date	24/06/2025
Approver	CPO

2. Prerequisite

The BP software must be up-to date with the latest Drug data update. Data update details can be found in BP Website

(<https://kb.bestpracticesoftware.com/bppremier/spectra/WhatsNew/WhatsNewDataUpdates.htm>)

- In BP **Select Help > About** from the main Bp Premier screen
- Make sure the “Last Drug update” field is the latest one.

3. Procedure to Enable the Halo Integration

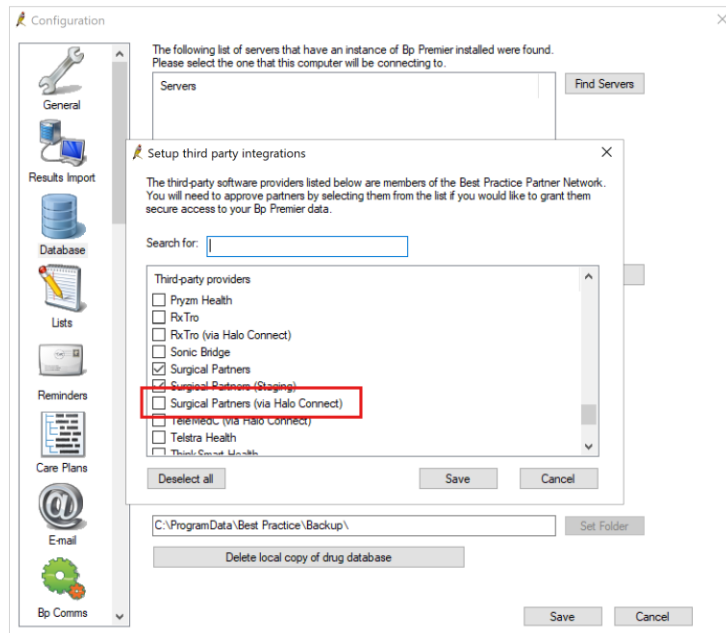

For connecting the BP Database to Surgical Partner Integration please follow the below steps and give us the **BP Site ID**. Please pass on the instructions to your IT team in case if they are managing the BP Server.

1. From the main screen of Bp Premier, select to **Setup > Configuration**.
The Configuration window appears.
2. Click **Database** from the left-hand menu and then the **Setup third-party integrations** button.
The Setup third-party integrations window appears.
3. Use the Search for text box to find “**Surgical Partners**”
4. Turn on the “**Surgical Partners (via HaloConnect)**” check box.
5. Click **Save**.
6. Your Bp Site ID can be found in Bp Premier. **Select Help > About** from the main Bp Premier screen.

Your Site ID is displayed in the bottom left of the screen. It should be an integer with no leading zeroes. For example: 12345

4. Best Practice Premier Knowledge Base
